

OPAL

ALUMINIUM ENTRANCE DOORS

First impressions count, and no more so than when it comes to our homes.

Replacing the front door can easily enhance the appearance of your home exterior. Curb appeal is something buyers and neighbours notice but not only does it need to be aesthetically pleasing, it needs to be strong to endure all types of weather and it needs to be secure to keep you and your family safe.

Aluminium doors are not only very easy on the eye, they are also extremely durable, energy efficient and secure. With a choice of doors and extensive range of designs and colours, you can find an aluminium entrance door that's perfect for you.

ULTION

UPGRADE TO ULTION LOCKS.

The moment that Ultion detects forced entry it activates an attack lock directly into the central cam, this is 'Lock Down Mode'.

The Ultion lock comes with a **£1000 Snap Guarantee**. Should a burglary take place within 10 years from the point of installation and entry was achieved by snapping an Ultion lock, they will pay you - the homeowner £1000.

OPAL OPULENCE

Opal Opulence is our most prestigious door which offers a wide range of designs, colours and styles to choose from. Whichever door you choose for your property, you can be sure of its outstanding performance, with high-quality locking mechanisms and precision construction combining to give unbeatable strength and security. You can choose from a range of designs and our extensive range of colours guarantees the perfect finishing touch.

Fully insulated door panel and polyamide thermal barrier provide enhanced performance and energy efficiency.

A range of bespoke accessories.

High quality 10-point locking mechanism provides outstanding security.

Custom aluminium moulding featured on specific doors to provide a traditional appearance.

Integrated weather bar for additional protection against the wind and rain.

Hidden hinge protectors provide robust security.

Elegant aluminium profiles, designed to provide both strength and durability.

A structurally robust construction that requires minimal maintenance and delivers outstanding performance over a lifetime of use.

Door sashes sit flush internally and externally with the outer frame for an elegant finish.

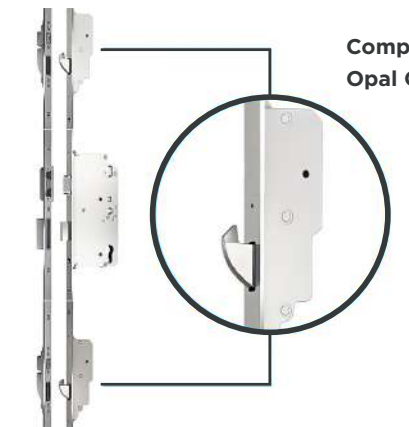

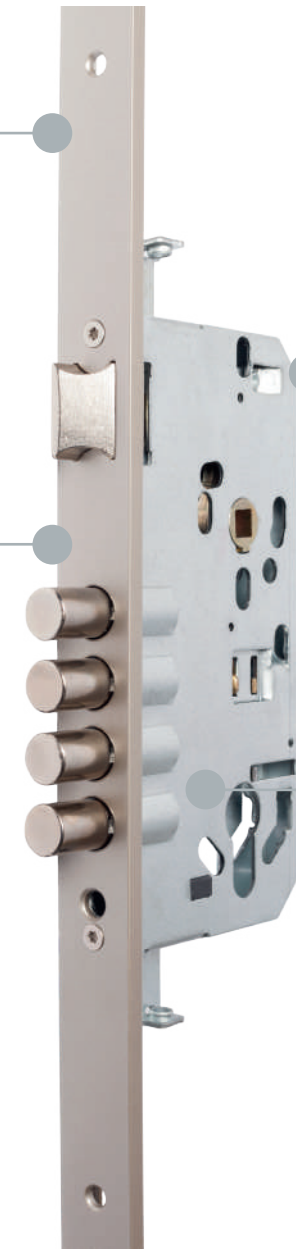

A high security **10-point lock** and escutcheon plate system with drill proof 'anti-bump' cylinder is fitted as standard on all Opal Opulence doors.

- Hardened stainless steel and picking protection pins provide tamper-protection.
- Upper and lower locking pins shaped conically for efficient closure.
- Our laser-cut key profile system prevents the use of any unauthorised keys.
- Horizontal key has a cross groove in the core which can only align with the 10-point spring-loaded pin pairs within the lock.
- Hidden hinge protectors provide robust security against external impacts.
- ISEO R7 cylinder, anti-bumping and placed 60mm away from the frame: high security and easy opening.
- Adjustable hinges and lock.
- Successfully tested to PAS 24:2016

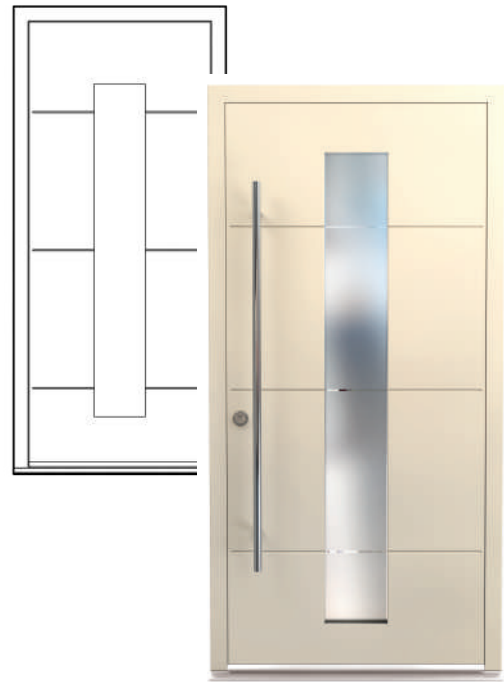

An integrated, enclosed glazing panel prevents the need for glazing beads - which provides maximum protection against ramming and forced entry.

'Block door' construction incorporates a **totally hidden sash** and fixings system for added security.

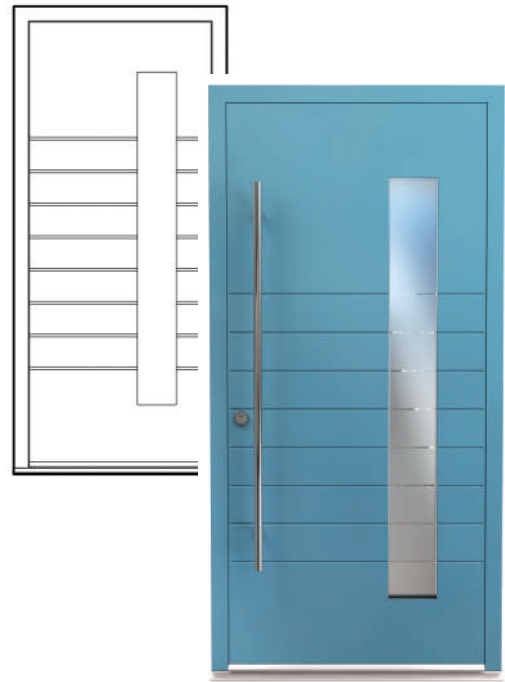

The lock body is encased and protected by the hidden door sash and external aluminium skin, **creating an additional 5mm aluminium external wall.**
